Akuvox Sight PC to IP Intercom Software

Akuvox Sight - PC to IP Door Intercom Interface Software

The Akuvox Sight Software allows your desktop PC or laptop to be seamlessly integrated as a remote door answering and video monitoring device as part of your SIP Door Intercom system.

Akuvox Sight is a PC software App which allows remote connection from your desktop PC or laptop to SIP Door Intercoms on the LAN, for voice call and video call answering, live video monitoring and remote door unlocking.

Any door intercom devices connected to the LAN can be accessed on the PC via Akuvox Sight - allowing any number of video door intercoms to be listed as individual end points which can be remotely accessed directly from PC/laptop devices.

- Remote Door Intercom Call Answering

Akuvox Sight provides remote voice and video call answering from SIP Door Intercom devices on the network, directly to your PC or laptop.

- Remote Live Video Preview

Sight will allow remote access to the cameras (where featured) and microphones of your SIP Door Intercom devices - providing anytime live monitoring of your property.

- Remote Door Unlocking

Akuvox Sight allows remote door unlocking via your connected SIP door intercoms; view and talk with visitors via the intercom and - if you're happy to let them in the building - simply press the 'Door Unlock' button to unlock the door, no matter where you are on site.

Bringing technology to life.
