Dambuster 'Jonny' Johnson at local school

The pupils of Highfields were treated to a once in a lifetime Q&A opportunity to meet Sqn Ldr George 'Jonny' Johnson, the last surviving Dambuster, with Chiayo's Stage Pro Portable PA System.

The Solution:

Currently celebrating their 50th Anniversary year with a series of community support and charity fundraising projects, CIE-Group provided a free loan of their latest generation Portable PA Systems – the Chiayo StagePro. The wireless audio systems provided high power voice coverage to the entire audience using a wireless tieclip microphone for the guest of honour and wireless 'roaming' handheld microphone used to great effect as it was passed around for the Q&A session.

A number of very interesting and enlightening questions were asked by the children about Jonny's experience as a bomb aimer in the Dambusters raids.

CIE-Group Sales Director, Steve Collin, who attended said, *"Everyone was captivated by Jonny's account of the bravery and professionalism of his fellow crew members. So close to the commemoration the 70th anniversary of D-Day, it was both eye-opening and poignant for the children to experience this once-in-a-lifetime account from someone who experienced the true bravery of those who fought in World War II."*

"CIE-Group were pleased to have been able to support this amazing and unique educational opportunity for the children."
