Why choose
NETWORK AUDIO?

AXIS
COMMUNICATIONS
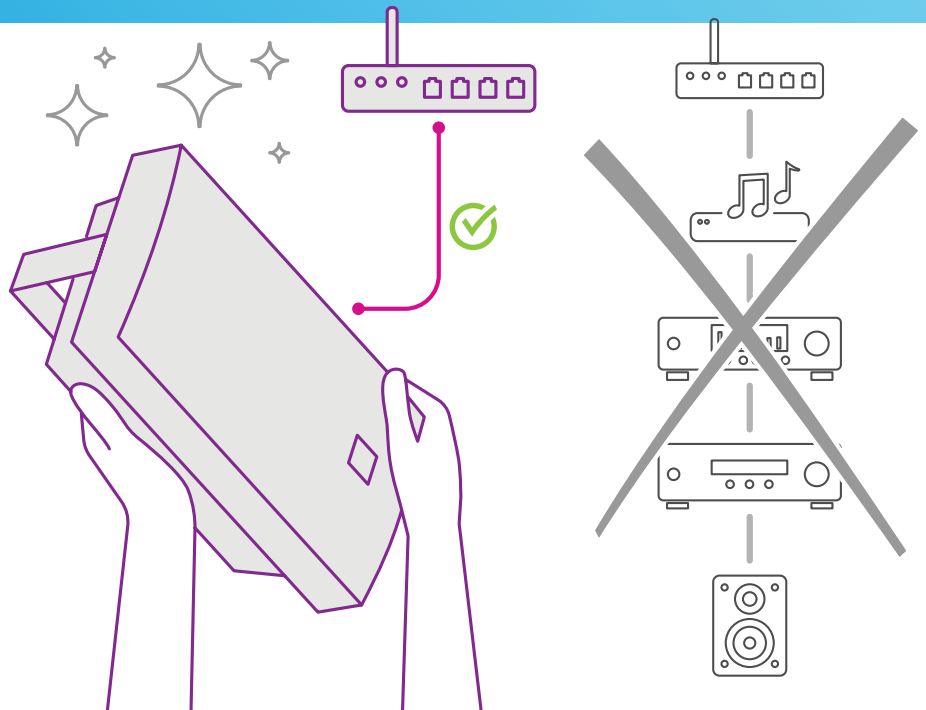

Axis offers complete, high-quality network audio systems that are perfect for security, background music and announcements in stores and other settings.

ALL IN ONE

Get a single, cost-effective integrated system for background music and announcements with **everything you need built right in.**
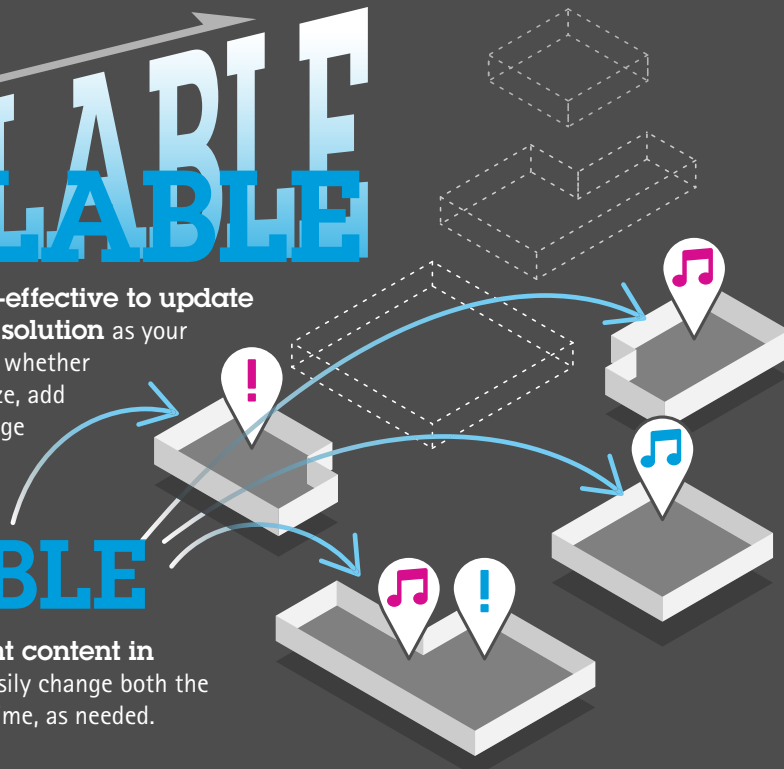

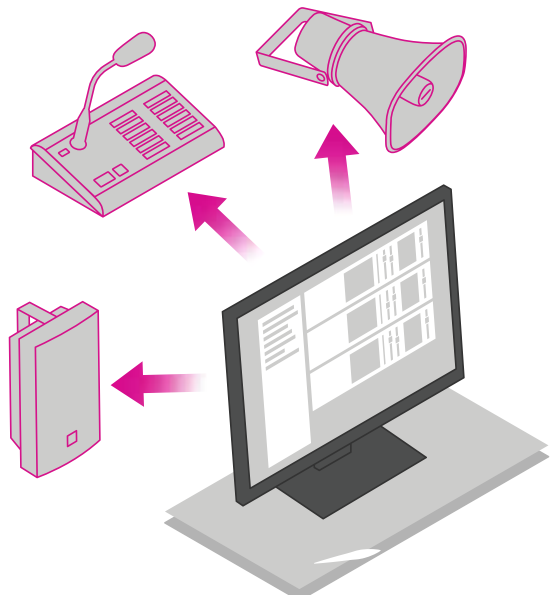

SCALABLE

It's **both easy and cost-effective to update and add units to your solution** as your needs change, regardless of whether you want to increase the size, add sites or simply take advantage of new features.

FLEXIBLE

Play and schedule **different content in different zones** - and easily change both the zones and the content anytime, as needed.
CENTRAL CONTROL

Take control of the entire system, including network speakers, audio bridges and microphones, **from a single point** via a single, intuitive interface.

Power + connection

EASY TO INSTALL

You need only **a single standard network cable for connectivity, power and communication** and connecting to your existing infrastructure - and there's no need for tuning.

EASY TO INTEGRATE

Connect and integrate your audio system with other systems and devices such as your access control system and cameras.

INTELLIGENT SYSTEM

Use integrated audio player and built-in or plug-in apps for music streaming, event-driven or scheduled announcements, audio detection, health monitoring, and so on.
